

Vasundhara Hospital, Ghaziabad

Alzheimer's Disease Medical Report

Patient Details:

Name: Mrs. Sunita Sharma
Age/Gender: 68 years / Female
Report Date: 10 / 11 / 2026

Consulting Physician:

Doctor's Name: Dr. A. K. Banerjee
Specialization: Neurology (Cognitive Disorders)
Hospital / Clinic: Vasundhara Hospital, Ghaziabad

Medical History:

- Memory decline observed over the past 10 months with progressive forgetfulness of names and dates.
- Disorientation during outdoor walks in neighborhood; difficulty remembering cooking sequences.
- Repeats questions periodically; expresses anxiety regarding memory slips.
- Sleep disturbances and mild evening agitation observed by family members.

Physical & Cognitive Examination:

- Blood Pressure: 126/80 mmHg
- Pulse: 72 per minute (Regular rhythm)
- Cognitive Test (MMSE Score): **21 / 30** (Mild-to-Moderate Cognitive Impairment)
 - Orientation: 6 / 10 (Confused about day of week & month)
 - Memory: 2 / 6 (Delayed recall 1/3 objects)
 - Attention: 4 / 5 (Serial 7 subtraction with minor slip)
 - Language: 9 / 9 (Naming and repetition preserved)

Lab & Imaging Reports:

- MRI Brain: Bilateral hippocampal volume loss (MTA Grade 2), mild temporal horn widening.
- Blood Tests: Thyroid profile (TSH 2.1 uIU/mL), Vitamin B12 (480 pg/mL), Fasting Blood Sugar - Normal.
- EEG: Mild slowing of background activity in temporal leads; no focal epileptic discharges.

Diagnosis:

Alzheimer's Disease (Early-to-Moderate Stage).

Treatment Plan:

1. Medications: Donepezil 5mg once daily at bedtime (titrate to 10mg after 4 weeks).
2. Lifestyle & Family Support: Daily orientation whiteboard, memory games, supervised walks, balanced diet.

3. Follow-up: Neurological evaluation every 3 months for cognitive score monitoring.

Conclusion:

Patient has been diagnosed with Early-to-Moderate Alzheimer's Disease. With structured cognitive exercises, proper anticholinesterase therapy, and active family caregiving, disease progression velocity can be controlled, and quality of daily living significantly supported.
